CUSTOMER'S MACHINERY REGISTER

We ask for your assistance in registering your holdings of equipment. This information can assist us greatly in after sales service, development of new products and customer awareness of Shearer products.

- Name:.....
Address:.....
.....State:.....Postcode:.....
- Type of purchaser (please tick) ☐ Owner / Manager ☐ Share Farmer ☐ Contractor
- Major activities (please number in order of importance)
☐ Sheep and cereal grain ☐ Vegetables ☐ Sugar
☐ Sheep only ☐ Poultry ☐ Tobacco
☐ Cereal Grain Only ☐ Pigs ☐ Oilseeds
☐ Meat Cattle ☐ Vineyards ☐ Others (please list)
☐ Milk Cattle ☐ Fruit ☐
- What is the size of your holding (hectares)?
What is the total area of your crop (hectares)?
What is your area under cereal crop (hectares)?
- In what town is your associated Shearer dealer? (i.e. either the dealer with whom you normally trade or the one who is closest)
- What John Shearer machines do you currently have on your property?

Thank you for your assistance; please feel free to use the back of this form to make any comments you wish.

PRE-DELIVERY CHECK

1. On delivery of DOUBLE DISC OPENER/S ensure there are no shortages.
2. Check Implement equipment, to ensure as ordered.
3. Check for trans-shipping damage.
4. Check and tighten bolts and nuts
5. Ensure that equipment is fully assembled and operating correctly.
6. Demonstrate and explain operation to the client.
7. Explain terms and conditions of Warranty to client

Congratulations on the purchase of your new JOHN SHEARER LIMITED implement. You have just joined the growing number of John Shearer customers and we trust that your implement will give you many years of satisfaction. The following information contained in this manual is provided with regards to your implement's operation, maintenance and warranty; however, should you require further assistance, contact your registered John Shearer Dealer.

WARRANTY POLICY

JOHN SHEARER LIMITED (JSL) warrants to purchaser that in normal use if any part of goods manufactured by JSL is proved to be defective material such part will be replaced or repaired by JSL if returned to Dealer at cost of customer within 12 months of delivery of goods, but such warranty shall to the extent permissible by law cease to apply forthwith if goods are misused or used contrary to recommendations of JSL and/or Dealer or if any unauthorised alterations, modifications or substitution of any part of goods is made or there is any breach by customer of the terms and conditions.

Customer agrees that JSL shall not be liable for any claim for damages due to loss of time in use of goods or loss of profits due to defective goods or for any other consequential damages whatsoever except to the extent that such exclusion of liability is prohibited by law.

All failures must be reported immediately by the purchaser to the Dealer (or in the event of the Dealer ceasing to hold the JSL franchise, then to the Dealer nominated by John Shearer Limited).

The only parts which would be replaced or repaired under warranty are those which are proven to be of defective materials by persons in authority in the JSL Field Service Department.

It is the policy of JSL to continually strive to improve their products whenever possible. Therefore, JSL reserves the right at all times to modify its products or parts without notification and undertakes no liability to modify products sold, to conform with any such modifications.

Travelling and kilometre charges are not accepted by JSL as JSL has no control where equipment is sold.

Nothing in this warranty policy and instructions shall purport to exclude or limit any liability the exclusion or limitation of which is prohibited or rendered void by the Trade Practices Act 1974 as amended or any other Federal or applicable State Legislation.

All pre-delivery checks must be done by the Dealer and signed when completed on the Warranty Registration Card.

FREIGHT: The JSL policy does not extend to cover freight charges.

SERVICE & MAINTENANCE: It is the responsibility of the owner to read the Operator's Manual and to maintain and operate the implement in a safe and correct manner within the manufacturer's specified capacity and operating limitations. Using the implement for purposes other than those for which it is designed voids all warranty.

Regular service to your implement can save costly repairs and save valuable time lost because of breakdown.

Resultant damage or failures originating from neglect of machine is not covered under warranty. For your spare part requirements contact your John Shearer Dealer.

OPERATING INSTRUCTIONS

DOWN PRESSURE

For best results, set the spring pressure only enough to ensure penetration. Spring pressure for use in soft ground should be much lower than for hard ground.

TURNING

Lift the disc clear of the ground when turning to avoid damage.

DEPTH

Use the chart below as a guide to which slot to use to achieve a certain depth. Note that it is only a guide as surface hardness will also affect the actual depth of penetration. Check you are achieving the correct depth when sowing commences by sowing a small amount (about 10m) and measuring the seed depth.

		OUTER PLATE				
		A	B	C	D	E
WHEEL ARM	1	44	13	-17	-45	-67
	2	71	39	6	-24	-49
	3	100	66	31	-1	-28
	4	129	94	58	24	-6
	5	160	123	86	50	18

The depth of the wheel relative to the disc (in mm) is given in the table above. The 'ABCDE' and '12345' settings relate to the slots on the outer plate and wheel arm as shown on the diagram to the right. Put the pin in the appropriate slots to achieve the desired depth setting. Note the dimension may be approximate depending on the exact condition of the tyre, so always check the depth is correct before sowing.
