

# JOHN SHEARER AS2400LT AIRDRILL

BUY AUSTRALIAN  
OWNED & MADE

## SEEDING IS A BREEZE WITH THE ALL-NEW, ELECTRIC-DRIVE AIRDRILL FROM JOHN SHEARER

John Shearer are proud to present the new electric drive, mounted Airdrill, catering primarily to farmers with small to middle size holdings. The 6.0 metre sowing width is available with sowing spacing options of 125mm (5"), 150mm (6") or 175mm (7").

A new electronic drive system replaces traditional chains and sprockets resulting in notably reduced maintenance needs.

Calibrating seed and fertilizer rates is much easier than before with control via a tablet that allows operation from the tractor seat or next to the Airdrill.

The Airdrill has a two-compartment hopper with a total capacity of 2,400 litres. The clever design makes filling fast and clean-out easy.

- ✓ **NEW ELECTRIC DRIVE**  
Stay in control from the tractor seat.
- ✓ **FOLDING WINGS**  
Narrow for transport, wide for sowing.
- ✓ **CHOICE OF OPENERS**  
Pick the ground tools that best suit your soil.
- ✓ **POWERFUL HYDRAULIC BLOWER**  
With built in oil cooler.
- ✓ **HEAVY DUTY CONSTRUCTION**  
For a long service life in harsh conditions.

Grow a Better Crop

### UNDER 3m TRANSPORT WIDTH ①

All models fold to convenient and compliant transport widths of 2.8-2.98m. Ideal for transit between paddocks on public roads.

### CLEVER DISTRIBUTION MODULE ②

Two 266mm (10.5") fluted metering rollers are easily accessible via inspection doors. Shut off gates allow rollers to be inspected or cleaned without unloading. The complete distribution module is easily removed for servicing.

### ELECTRIC DRIVE, EASY CALIBRATION

Electric roller drive with in-cab wireless seed and fertilizer rate control. Calibration of sowing rates is made easy with our app guiding you through the process and removing the need to manually turn shafts.

The hopper is fitted with sensors to monitor the shafts and bin levels for both seed and fertilizer. An electronic scale is also included for convenience.

### CHOICE OF OPENERS

Double Disc Openers ③, 630 Tyne with super seeder points and Coil Tyne with baker T blades are all available for fitment to suit your soil type.

### HUGE SEED AND FERTILIZER HOPPER

The 2400L hopper ④ allows for 1208L each of seed and fertilizer.

### WIDE RANGE OF SEED TYPES

No roller change is required when switching from fine to course product. Sow anything from fine pasture seeds to larger cereals.

### OPTIONAL ACCESSORIES

Coulter ⑤, harrow and press-wheel kits are available to tailor each machine to your specific conditions.

### EXCELLENT TRASH FLOW

The five-row frame has been optimised for maximum trash flow with long lead between rows and ample underframe clearance.
