

FINEST IN THE FIELD

John Shearer Folding Wing Trashworker

Designed for primary and secondary tillage in trash farming, stubble mulch cultivation and chisel ploughing to break up hard pans.

Attaches to a John Shearer airseeder for trashseeding.

Folding Wing Trashworker

TYNE ASSEMBLY FEATURES:

Pressure adjustable "on the go" from the tractor seat to suit varying soil conditions.

Tyne breakout force adjustable from 0.4kN (100lbs) to 4.4kN (1000lbs)

Full unimpeded jump height at all pressure settings

35mm diameter induction hardened pivot pins and bushes

Streamlined (25mm) leading edge, improves trashflow, reduces draft.

FOLDING WING TRASHWORKER FEATURES INCLUDE:

- Proven robust construction
- Level lift for equal working depth
- Narrow transport width
- Excellent trash clearance; wide lead between rows and proven tyne layout
- Greasable hardened pins and bushes on all critical high load pivots
- Designed for low maintenance; minimal moving parts
- High flotation tyres are standard
- New option; narrow tyne spacing for summer crop sowing
