

# JOHN SHEARER AS2400LT AIRDRILL

## MAKES SEEDING IS A BREEZE WITH THE JOHN SHEARER AS2400LT AIRDRILL

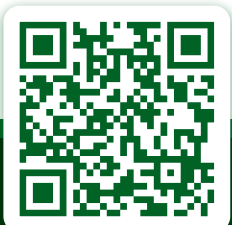

John Shearer are proud to present the electric drive, mounted Airdrill, catering primarily to farmers with small to middle size holdings. The 6 metre sowing width is available with sowing spacing options of 125mm (5"), 150mm (6"), 175mm (7"), 203mm (8"), 229mm (9") or 250mm (10").

A new electronic drive system replaces traditional chains and sprockets resulting in notably reduced maintenance needs.

Calibrating seed and fertilizer rates is much easier than with a mechanical drive with control that allows operation from the tractor seat.

The Airdrill has a two-compartment hopper with a total capacity of 2,416 litres. The clever design makes filling fast and clean-out easy.

- ✓ **ELECTRIC DRIVE**  
Stay in control from the tractor seat.
- ✓ **FOLDING WINGS**  
Narrow for transport, wide for sowing.
- ✓ **CHOICE OF OPENERS**  
Pick the ground tools that best suit your soil.
- ✓ **POWERFUL HYDRAULIC BLOWER**  
With built in oil cooler.
- ✓ **HEAVY DUTY CONSTRUCTION**  
For a long service life in harsh conditions.

## FEATURES

### ELECTRIC DRIVE, EASY CALIBRATION

Electric roller drive with in-cab seed and fertilizer rate control. Calibration of sowing rates is made easy by removing the need to manually turn shafts.

### MONITORING SENSORS

The hopper is fitted with sensors to monitor the shafts and bin levels for both seed and fertilizer. An electronic scale is also included for convenience.

### EXCELLENT TRASH FLOW

The five-row frame has been optimised for maximum trash flow with long lead between rows and ample underframe clearance.

### DISTRIBUTION MODULE

2x 266mm (10.5") fluted metering rollers, easily accessed via inspection doors. Optional very low rate rollers available for sowing small seeds like canola. The complete distribution module can be removed for ease of servicing.

### UNDER 3m TRANSPORT WIDTH ①

All models fold to convenient and compliant transport widths of 2.8-2.98m for transit between paddocks on most public roads.

### CHOICE OF OPENERS

Double Disc Openers ②, 630 Tynes with super seeder points ③ and Coil Tynes with baker T blades are all available for fitment to suit your soil type.

### LARGE SEED AND FERTILIZER HOPPER

The 2416L hopper ④ allows for 1208L each of seed and fertilizer.

### OPTIONAL ACCESSORIES

Coulter bar kit ⑤, press-wheel kit, grass seed box kit, dual seeding kit, auger kit and spring tooth harrows are available to tailor each machine to your specific conditions.
